Summary

Aspiring IT professional and Computer Science graduate with a strong foundation in network security, systems administration, and hardware diagnostics. Experienced in ticketing systems, Linux environment management, Bash automation, and component-level troubleshooting. Currently advancing technical expertise through CompTIA Security+ and Cisco CCNA certifications.

Technical Skills

- **Networking:** DNS Configuration (Pi-hole, unbound), DHCP, TCP/IP, VPN's, SSH, Firewall management
- **Systems & Automation:** Linux, Bash Scripting, Scheduling, Windows 10/11, MacOS.
- **Hardware:** Electronics repair, Raspberry Pi, Pc Building, Logic Board Diagnostics.
- **Software & Tools:** Git/GitHub, VS Code, Android Studio, MS Suite, Python, Java, C++.

IT & Engineering

Home Lab: Network Security & Systems Automation — Personal

- **Secure Remote Access:** Deployed and configured WireGuard VPN peer-to-peer tunnel, enabling encrypted, low-latency remote access to home network resources.
- **Infrastructure:** Deployed a Raspberry Pi 5 running Pi-hole for network-wide ad-blocking and Unbound for a private, recursive DNS cache to enhance privacy and network speed. Attached storage to the Pi to achieve a Network attached storage system (NAS).
- **Automation:** Developed and implemented Bash scripts and Cron jobs to automate system updates and security patches across Linux environments, ensuring 100% up-time and vulnerability mitigation.
- **Remote Management:** Configured SSH access for headless management and CLI-based troubleshooting.

Professional Experience

CPR Cell Phone Repair — Richmond, VA Repair Technician

January - Present

- Utilize RepairQ to manage a high-volume ticket queue, documenting detailed diagnostic notes, parts inventory, and labor hours for every repair.
- Perform precision hardware diagnostics and repairs on mobile devices and laptops, specializing in component-level troubleshooting and logic board replacement.
- Resolve firmware conflicts and OS-level bugs for iOS and Android, ensuring data integrity during complex hardware swaps.

Advance Auto Parts — Richmond, VA Sales Associate

June 2025 - January 2026

- Utilize specialized diagnostic tools to interpret vehicle ECU codes and troubleshoot electrical and mechanical failures.

Education

Christopher Newport University (CNU), Newport News, VA
Bachelor of Science in Computer Science, Minor in Data Science

August 2021 - December 2025

Certifications (In Progress)

- CompTIA Security+ (Expected April 2026)
- Cisco Certified Network Associate (CCNA) (In progress)

Honors & Leadership

- **Eagle Scout:** Lead a team of 20+; managed project budgeting and construction of school infrastructure.
- **ICPC Competitive Programming:** 4th Place (Regional) - Algorithmic logic and problem-solving.
